

Success comes from working together.

Our next event is at Chilston Park Hotel, Sandway ME17 2BE on Tuesday 9th April. The time, as always, is 6.15 to 8.30pm. You must book! 01622 820841 or email MBN.

What is a headshot? A headshot is a modern portrait where the focus is on the person.

The term is usually applied to a professional profile image on social media, the 'about us page' on a corporate website and for promotional pictures of actors, models, etc..

Headshots are also part of everyday social media and almost every online platform features a profile picture. This profile picture, whether on dating sites, social media or in the "about us" section on company websites is the first time many potential clients or companies representatives will see you, so first impression is vital. It can be the difference in whether somebody chooses to connect with you or not.

Photographer, Imelda Bell, will be talking about headshots and why good photography is so important to make your business stand out.

After her talk, Imelda will offer you the chance to have your headshot taken for just £20 with a percentage of the money going to Breast Cancer Kent, so why not update your headshot and get a smart new look for you business or social media and donate to a great cause too.

Please let us know in advance if you would like your photo taken, so we can work out numbers, as slots will be limited. Thanks.

More information about Imelda Bell on our website or Google her to see a real life star and what she has achieved.
